

PRODUCT NOTE

Dodge® end covers for light duty flanges

Heavy duty protection for light duty flanges

Dodge light duty plastic end covers protect workers from rotating shafts and provide extra sealing protection for the bearing. The tool removable design ensures that the end cover will stay secure during operation. Dodge covers offer the safety and reliability you need.

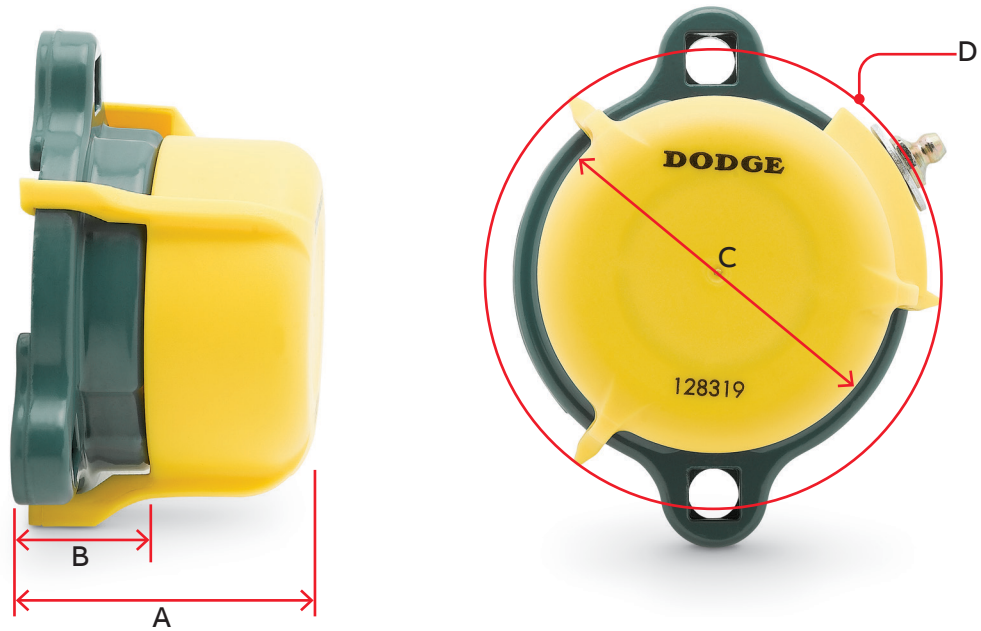

A cover made for your equipment

Dodge end covers for light duty flange ensure your employees are safe and protect your bearings from contamination. The unique cover design grips the back of the housing and is anchored by the zerk fitting.

- 2 bolt and 3 bolt design for light duty flanges
- The tool removable design complies with OSHA regulations for safeguarding
